

# WORLDWIDE NETWORKS

## FOR WORLDWIDE BUSINESSES

More and more businesses are expanding operations beyond national borders. Timely, information-rich communications between offices is critical to their success. Their telecommunications networks must be seamless, scalable, and able to reach major centres and remote offices effortlessly.

Newbridge Networks has developed a networking platform optimised for telecommunications networks that span the globe. The Global Services Management Platform (GSMP) is a modular system designed for maximum scalability. It consists of high performance networking nodes and a powerful services management system that provides unparalleled ease of operation. Imagine provisioning network links between Zurich and Hong Kong, New York and London, Paris and Toronto, Kyiv and Washington – simply

by clicking on graphical icons of the cities on a network map. What's more, this incredible ease of use extends to networks employing multiple technologies including TDM, frame relay, ATM, X.25 and ISDN.

With over 10,000 private network operators and more than 200 of the world's largest service providers as customers, Newbridge is a worldwide business in its own right. We support our customers' highly reliable networks with responsive local service in more than 50 countries, including Ukraine

Seamless global networks, ease of use, multiple technologies on a single network, local support – you can have it all. Contact Newbridge today to find out more.
